

Digestive Aid

FAQ

Q: What are the benefits of Xyngular Complete Digestive Aid™?

- A:
- Breaks down protein, carbohydrates, fat, fiber, sugar, and dairy*
 - Improves digestion and nutrient absorption*
 - Reduces gas and bloating*

Q: How do you recommend using Xyngular Complete Digestive Aid?

A: Take 1-2 chewable tablets with meals.

Q: Can I take Xyngular Complete Digestive Aid with snacks?

A: Yes, you can take Complete Digestive Aid with snacks, but we recommend only taking half of a chewable tablet with smaller portions.

Q: What makes Xyngular Complete Digestive Aid different from other digestive enzyme products?

A: Many digestive enzyme products come in capsule form, meaning your body has to work twice as hard to break down the capsule before you can get those helpful enzymes. Designed as a chewable, Complete Digestive Aid makes digestion at first bite easy, breaking down your entire meal while you chew. Made up of organic debloating botanicals with 14 broad-spectrum enzymes, Complete Digestive Aid offers immediate impact to help ease occasional bloating, support gut comfort, and optimize nutrient absorption.*

Q: What are the key ingredients in Xyngular Complete Digestive Aid?

A: The key ingredients are a blend of digestive enzymes to break down your food, including proteases, amylases, lipase, and lactase, as well as two gut-soothing botanicals: organic dandelion root and organic ginger root.*

Q: What are the two different blends in Xyngular Complete Digestive Aid?

A: The Complete Digestive Enzyme Blend™ contains a mix of various digestive enzymes to break down proteins, carbohydrates, fats, fibers, sugars, and dairy.*

The Organic Anti-Bloat Botanicals contains organic dandelion root and organic ginger root to keep post-meal bloating at bay.*

Q: Can I use Xyngular Complete Digestive Aid with other Xyngular products?

A: Yes, Complete Digestive Aid makes a great addition to any Xyngular supplement routine.

Q: I forgot to take my Complete Digestive Aid with food. Can I take it after I eat?

A: Yes, you can take it immediately following your meal, but we don't recommend taking it without food in your stomach.
