The Xyngular Promise

While most weight-loss companies are about less, Xyngular is about more – more health, more help, more hope.

Our systematic approach to success is rooted in results, not hype. It begins with our starter systems to fast track your weight loss and put you on a pathway to healthy transformation. A combination of proven weight-loss supplements help you shed unwanted pounds. Then our health products continue to enhance your life (long after losing weight) by helping to restore areas of your body that may have been compromised as a result of being overweight or aging.

With a trimmer, healthier body that's full of newfound energy and vitality, you can experience more of a vibrant and fulfilling life.

That's our purpose and promise to you.

Getting Started

You did it. You took the first, hardest step. You made the life-changing decision to get slimmer and healthier. Today your journey begins and we'll be right by your side for every step. Because it's our journey, and we're as committed to your success as you are. Now, let's get this party started!

Step 1. Determine your goals and write them down.

If you can conceive it, you can achieve it. So, first clarify in your mind why you want to lose weight and what results you want to achieve. Maybe it's to lose 15 pounds, increase your energy, or just feel more alive again. Regardless, write down your reasons and goals on page 5 of this guide. Then, live (and diet) by your reasons and goals. Make copies of them and put them everywhere; sticky notes on the fridge, reminders on your phone, dry-erase marker on your bathroom mirror, whatever it takes to continually remind yourself what you're doing and why. (You'll thank yourself a month from now.)

Step 2. Take “before” pictures and record your measurements.

Every journey has a starting point and this is yours—your baseline. You need to record it so you can track your progress and know how far you've come. It's simple. Start a project file and keep it up to date. To get you started, on page 5 is a measurement tracker to record all of your data. You'll be taking your measurements, weighing yourself, and snapping your photos three separate times from beginning to completion of the one-month Ignite system:

- Day 1
- Day 9
- Day 30

Don't be embarrassed or cheat on this part. There's a science to success and accurate data is key to your success. Plus, you'll be proud of the pounds and inches lost.

Remember, this is just the first month of your transformation. To help you continue to track your progress and reach your goals, be sure to download our 12-month tracker at xyngular.com/ignite-resources

Step 3. Follow our simple plan to reach your goals.

Your transformation begins with an 8-day jumpstart. Follow the supplement regimen closely and you'll see rapid results. (And be motivated by the positive changes you see in yourself.) From day 9 to the end of the month you'll shift gears to a new supplement schedule and your choice of meal plans. Don't worry, simple instructions make it easy to know what supplements to take and when.

Step 4. Go grocery shopping (and have fun with it)!

You are what you eat. So, if you want to be healthy, eat healthy. And shop healthy. It's time to develop a new relationship with food. Learn to love the vibrant colors, fresh smells, and natural tastes. You'll be surprised how quickly you begin to feel better (and lighter) when you say goodbye to unhealthy, processed and fast food.

After your 8-day jumpstart, choose your meal plan—low-carb or keto. Our meal plans help you know what to eat and when, and even include recipes. Now go shopping and fill your kitchen with fresh, new, delicious foods. Next, out with the old. Discard the bad stuff from your fridge, freezer and cabinets so it can't tempt you. Prep meals in advance if you can, but be realistic. If you never cook or you're super busy in the evenings, try some of the simpler recipes or pick up store-bought rotisserie chicken and frozen veggies

Step 5. Connect with Xander.

If you haven't met Xander yet, it's time. He's your virtual coach and new best friend. Xander texts you friendly reminders about when to eat and take your supplements. He's here to answer your questions about meal plans and products anytime, 24-7. Get to know Xander at xyngular.com/products/faq-xander

Step 6. Invite a friend to go with you on this journey.

Studies show that weight loss is easier and more successful when done as a couple or with friends. It's just more fun when you can share results and cheer each other on. So, before you start your journey, see if your spouse, partner or friends want to get slimmer and healthy too. Most people know they need to, so you might be surprised how many want to come along on this journey. (One Xyngular Member mentioned it on Facebook and had 40 people want in!)

Congratulations, you're on your way to becoming a healthier you (which usually means happier too).

Get rapid results with our 8-day **jumpstart** and meal plan.

Eating is habit as much as it is instinct. Your mind and body get used to eating certain foods, but over time you can change what you crave. So, let's wipe the slate clean and start to develop healthy new eating habits, together.

Measurement Tracker and Goals

Recognize and celebrate your little victories. (You deserve it.)

You're going to experience little wins along the way, that's the fun part. Maybe you just buttoned those favorite pants again without breaking a nail. Or maybe you played with your kids or ran with your dog for the first time in a long time. Whatever the win, jot it down so you don't forget it. Start here by recording your measurements. Do this the day you begin, then measure and record again on day 9 and day 30. For more information on how to take "before" photos and body measurements go to www.xyngular.com/ignite-resources

⌘ Post-Jumpstart Product Timeline

By day nine, you've completed your jumpstart and are ready to shift to the second phase for the remainder of the month. This means a new supplement schedule and eating regimen. But don't worry, Xander will be with you every step of the way. Here's what your day will look like:

*See product overview on page 7 for usage.

Post-Jumpstart Meal Plans

Low-Carb Meal Plan

If you love lean meats and veggies, then this meal plan is for you. It's great for boosting metabolism, burning fat and overcoming weight-loss plateaus. With the low-carb meal plan, you'll steer clear of most kinds of carbs (outside of veggies). You'll have three delicious meals and two snacks each day.

You'll eat high-protein snacks and meals with lean meats, like chicken and fish, and plenty of veggies. The low-carb meal plan includes a few cheat meals too. Be sure to follow our guidelines on cheat meals closely to keep yourself on track.

Keto Meal Plan

If you love meat, cheese and avocado, you'll love this meal plan. The ketogenic diet is a high-fat, low-carbohydrate, moderate-protein diet. It helps your body burn fats rather than carbohydrates. When you follow the keto diet, your liver begins converting fat into fatty acids and ketone bodies. They become your body's energy source, instead of glucose from carbs, turning you into a fat-burning machine.

You'll eat healthy meals with meats, like beef and fish, and plenty of healthy fats like avocado. The keto meal plan does not include any cheat meals. The key to success with keto is staying in ketosis and cheating will throw you out of ketosis fast!

Whichever you choose...

You will eat well-rounded, healthy and satisfying meals (and not feel deprived). To get started, choose your meal plan, then simply follow our weekly menus. Once you know what you like and what works with your schedule, you can mix and match your meals however you like. You can prepare our recipes or plan your own using the portion guidelines on the following pages.

Steak Chimichurri With Tomato Salad

It's easy—and fast—to serve steak for dinner! Chile peppers add a slight bite to the chimichurri mix and, along with a quick, tossed tomato salad, bring a summer flair to the table all year long.

Prep Time: 15 minutes

Cooking Time: 10 minutes

Total Time: 25 minutes

Serves 4

Ingredients:

Chimichurri:

- 1/2 cup olive oil plus extra for cooking steak
- 2 tablespoons red wine vinegar
- 1/2 cup parsley, finely chopped
- 2 teaspoons fresh oregano, finely chopped
- 3 to 4 cloves garlic, finely chopped or minced
- 1 to 2 small red chilies, seeded and finely chopped (about 1 tablespoon)
- 1 teaspoon salt
- 1/2 teaspoon black pepper
- 1 1/4 pounds flatiron steak (skirt, hanger, or flank can be substituted; cooking times might vary depending on thickness)

Tomato Salad:

- 1 pint cherry or grape tomatoes, sliced in half
- 1/2 small red onion, thinly sliced
- 2 to 3 tablespoons extra virgin olive oil
- Salt and pepper, to taste

Method:

1. To prepare the chimichurri: Mix together olive oil, vinegar, parsley, oregano, garlic, chilies, salt and pepper in a bowl.
2. Sprinkle both sides of steak with salt and pepper. Heat 1 tablespoon olive oil in cast-iron skillet over medium-high heat. When smoking hot, add steak and cook, about 3 to 4 minutes per side for medium-rare. Allow steak to rest for 5 minutes before serving.
3. While the steak is resting, prepare the tomato salad. In a bowl, toss the tomatoes and onion with olive oil. Season with salt and pepper.
4. Slice the steak thinly against the grain. Spoon chimichurri over the steak. Serve steak with tomato salad on the side.

Note: Chimichurri can be prepared ahead of time and refrigerated for 24 hours, if needed.
